

Recruitment Module — Sidebar Restructure Proposal

For Team Lead Approval — Suki HRM / KUN Aerospace

Date	2026-09-13
Module	Recruitment & Onboarding
Reference	BRD v6.4 — RECRUITMENT_ONBOARDING_BRD_COMPLETE_2026-09-12, §16 Module Structure
Purpose	Approve new sidebar structure before development begins

1. Problem Statement

Current Recruitment sidebar: 2 groups / 11 items — but **10 of 11 items are dead links** (no pages built). Only Job Postings works.

If all missing BRD screens are added as flat sidebar items, the module grows to **41 items** — unusable for recruiters.

BRD §16.3 solution: Tab-based pages — sidebar shows 4 groups; each opens a page with tabs inside.

2. CURRENT STRUCTURE (As-Is)

2.1 Recruitment Sidebar — 2 Groups / 11 Items
